

DESCRIPTION OF REQUIREMENTS

DEAR AUTHORS OF PUBLICATIONS!

We accept previously unpublished research contributions in English. According to the executing regulations the volume of your contribution should be **at least 5 - not more than 10 pages**.

The following materials should be submitted in the terms:

- Participation application (send attachment # 3 at aedlab@gmail.com or fill out online on <http://propulsioncongress.com>). Dead-line is May 01.
- The cover letter with request for publication.
- The electronic version of the paper.
- The electronic version of author's background (see the file Author's background.doc attachment # 4).

PAPER FORWARDING

- Electronic materials are accepted only in the format of Microsoft Office Word 2003 or you can save article in format *.doc. (Note that formulas are typed in the formula editor MS Equation 2.0, 2.01 or MathType.).
- File value should not exceed 10MB.
- Presentations for the reports are also accepted by e-mail in Microsoft Office PowerPoint format, or as a set of JPEG pictures.
- The materials can be sent to these e-mail addresses: aedlab@gmail.com, info@propulsioncongress.com.
- It is obligatory to specify topic « # Congress» (*instead # please insert a current number of the Congress*) in the message (otherwise your contribution will not be received by Organizing Committee)!

Electronic version should contain:

- The cover letter with request for publication;
- The paper with figures executed according to the requirements;
- Authors' background;

According to the regulation of Highest Certifying Commission No. 7-05/1 dated 15.01.2003 the paper text should have the following structure:

- Problem statement in general view and its connections with important scientific and practical problems;
- Analysis of the last research and publications, referred by the author;
- Paper purpose (tasks for investigation);
- Principal material description for the research with full substantiation of scientific results;
- Research conclusions and future prospects for this research.

DESCRIPTION OF REQUIREMENTS

The text is formatted in **2 columns 8 cm each, the distance between two columns of text equals 5 mm.**

Font – **Times New Roman**,

Font size **10 points**, script interval – normal (neither extended nor condensed),

Line spacing - **multiplier 1.1**,

Alignment - **justified**,

Automatic hyphenation for words.

Paragraphs should be started with the first line indent (indent **7.5 mm**).

Full page coverage (not full page will not be included into publication).

Each article of two or more co-authors, the information about **Authors' Contribution** must be clearly provided. This information should be given after the “**Conclusion**”.

After “**Author Contributions**”, please include the following information for all articles, no matter how many authors:

- **Conflict of interest**

The authors declare that they have no conflict of interest in relation to this research, whether financial, personal, author ship or otherwise, that could affect the research and its results presented in this paper.

- **Financing**

Sources of funding must be indicated. If there is no funding, it is necessary to indicate:

The study was performed without financial support.

- **Data availability**

Choose one of the options and indicate it in the text of the manuscript:

manuscript has associated data in a data repository

manuscript has data included as electronic supplementary material

data will be made available on reasonable request

data cannot be made available for reasons disclosed in the data availability statement

manuscript has no associated data

- **Use of artificial intelligence**

Choose one of the options and indicate it in the text of the manuscript:

The authors confirm that they did not use artificial intelligence technologies when creating the current work.

The authors have used artificial intelligence technologies within acceptable limits to provide their own verified data, which is described in the research methodology section.

Acknowledgments

ILLUSTRATIONS:

Are submitted as the files with *.TIF or *.JPG extension (grey image, resolution 300 dpi, scale 1:1). Figures must be numbered.

CAPTIONS:

The caption is typed with the font of body text at spacing of one string from the figure; line spacing is single, for example:

Fig. 1. Diagram of compressed air bleed from gas-turbine engine:

1 – energy of incident flow; 2 – air bleed from low-pressure compressor

The caption is centre aligned. The quality of illustrations and graphs should provide easy reading and copying.

TABLES:

The tables should be numbered: Table 1, Table 2,etc, (the word Table is placed with right alignment). Table heading is centre aligned. Line spacing is single. Font size can be reduced, if necessary. No abbreviation, except conventional, are allowed in the tables.

DESCRIPTION OF REQUIREMENTS

FORMULAS:

MathType formula editor (required for Microsoft Word 2007 and later versions). It is not allowed to use graphic objects, frames and tables for typing. Set up editor settings in the menu:

SIZE→DEFINE input sizes:	
Normal	10 pt
Large index	80 %
Small index	70 %
Large symbol	150 %
Small symbol	90 %

Style→Define set parameters			
Style	Font	Bold	Italic
Text	Times New Roman		
Function	Times New Roman		
Variable	Times New Roman		
Greek Caps	Symbol		
Greek Lows	Symbol		
Symbol	Symbol		
Matrix	Times New Roman	V	
Numbers	Times New Roman		

The formula is placed in the centre of the line (flush paragraph), numerical numbering, continuous. Formula number (in parentheses, 10 pt) is placed flush right on the same level as formula or lower. It is not allowed to stretch or compress formula box. Notations should be placed right under the formula, in such a sequence as they are represented in the formula. Each value should be described in the new paragraph with an indent 7.5 mm. The first row of explanations is started with the word “where” (full-out), for instance:

$$\text{Re}_T^{**} = \Psi_\Sigma \cdot \int_0^x q_w dx \cdot \left[\mu^* (i_w^* - i_w) \left(\frac{2}{\pi} \beta + 1 \right) \right]^{-1}, \quad (1)$$

where β – angle between flow and wall;

μ^* – heat-carrier viscosity at temperature T^* ;

Ψ_Σ – general coefficient of the difference between the given heat exchange process and standard one.

LISTS:

Marked (–), enumerated: number format Times New Roman 10pt, indent paragraph 7.5 mm, tabulation after the number is equal to 5 mm.

SECTIONS HEADLINES:

Headlines of each section should be enumerated 1, 2, ...

Font – Times New Roman bold, low-case, 12 pt, centre alignment, single line spacing, flush paragraph, it is separated from the text by empty lines.
