

**Mykola SMITH, Jerre PETERS** – Authors' names. Times New Roman, font size = 12, interval = 1,0

**National Aviation University, Kyiv, Ukraine** – Authors' affiliation. Times New Roman, font size = 12, interval = 1,0

**TITLE OF THE ARTICLE (in original language, for example in english)** Times New Roman, font size = 12, interval = 1,0

*Abstract text in original language. Times New Roman, font size = 10, interval = 1,0. 1800 characters*

**Keywords:** words; ... 5-10 words.

### Introduction

Text of the article. Times New Roman, font size = 10, interval = 1,1.

To which area of science (production) include studies referred to in Article;

Justification of the relevance of the problem to be solved by the author.

Formulation of the problem in general and in relation to important scientific and practical tasks.

This section should provide an analysis of research and publications in which other scholars have worked on the problem, highlighting the previously unresolved parts of the general problem to which your article is devoted.

The purpose and objectives of the study should be interrelated and should cover the theme stated in the paper title. Research objectives should be numbered.

### Materials and methods of research

First, you must provide a description of the materials and reagents used in the work, indicating the manufacturer and the country of production. Research methods should be structured according to the objectives of the research. Research methods should be formulated so that the above research description can be reproduced.
